

BOWDOIN FACULTY SCHOLARSHIP

Purpose:

This award is offered to enhance the quality of the academic and intellectual experience of Faculty Scholars by encouraging enrichment opportunities such as research, independent study, internships, and service learning or community engagement.

Award:

Bowdoin College will award \$3,000 to Faculty Scholars to help fund enrichment opportunities during the course of their tenure with the College. The award may be used at any time between first year matriculation and graduation, as long as the student is currently enrolled. Faculty Scholars may request a waiver of the summer earnings expectation for one summer if they are pursuing enrichment projects. Enrichment opportunities cannot receive Bowdoin credit. Students may apply to receive their award in one lump sum or at different periods during their tenure. The total request may not exceed \$3,000.

Please note that approved educational experiences are not available during disciplinary, voluntary, academic, or medical leaves of absence after the student has graduated.

How to Apply:

Applications should be submitted several weeks before the start of the summer experience.

One-page proposal explaining how this academic and intellectual experience will enhance your experience.

Budget: Provide an itemized budget that details how these funds will be used, such as for travel expenses, room and board, supplies, equipment, etc.

Applications should be emailed to:

Corey Colwill
Center for Curricular Opportunities
ccolwill@bowdoin.edu

Reflection Essay:

At the completion of the experience, all Faculty Scholars are required to write a one-page reflection essay about their experience.
